## Words of the president

## DEVOTION

Devotion is the capacity of if delivering to the accomplishment of an objective.

I do not know anybody that has progressed in the career without working at least twelve hours per day in the first years. I do not know anybody that obtained to carry through its dream without sacrificing Saturdays and Sundays at least one hundred of times.

In the same way, if you to want to construct to a friendship with its children, will have dedicating to this, surpassing the fatigue, to arrange time to be with them, to leave of side the pride and the laziness. If to want a rewarding marriage, will have to invest time, Energy and feelings in this objective.

**The success is constructed to the night!**  
**During the day you it makes what all make.**

**But to obtain a different result of the majority, you it has of being special.** If to make equal to everybody, will get the same results. Do not compare yourself with the majority; therefore unhappily, it is not the success model.

If you to want to reach a special goal, will have to study while the others are taking chopp with French Fries. You will have to plan, while the others remain to the television front. You will have to work, while the others take sun to the side of the swimming pool.

The accomplishment of a dream depends on the devotion.  
 It has much people that wait that the dream if carries through for magician.  
 But all magicians are illusion.  
 Illusion does not take off anybody of the place where it is.

ILLUSION IS COMBUSTIVEL OF THE LOSERS...  
 (Robert Shinyashiki)

A great hug,  
 LUCIANE KLAFKE OF AZEREDO SCHNEIDER.

## individual Area

The individual area has as main objective the qualification and the growth of the members. In March 7th, the members had attended to the lecture Moment, given for the member Cláudio Biasi, of LOM Tapejara.

Also was present in this first administrative meeting of the year Daniel Graminha, sectorial vice-president.

Considering the project integration a project of great importance, therefore has as intention to know staff professionally and, beyond within JCI, the people who participate currently of the JCI, as well as that already had passed for the organization; Board 2005 will give continuity exactly. The activities of the project had had beginning March 28th with the participation of the members Marcus Lunardi and Daniel Moisés Paz.

Carla Schneider Kunrath  
Individual Vice-president

## Communitarian Area

<p><b>A worthy work!</b></p> <p>In the April month we will initiate our project in the Plant of Recycling of the Roselândia quarter with a lecture Cooperative. To be cooperated means to be able to reorganize its way of life and to have a chance of reintegration to the society.</p> <p>Through qualification courses, alphabeting, social and psychological assistance, the cooperated one finds support to develop an activity that provides profit and participates to it of an essential process for the urban life: the recycling.</p> <p>The survival question is one of the strong reasons that take many people for this profession, since the garbage workers are not accepted for the work market and finish being excluded for the society.</p> <p>The garbage worker is considered a self-employed worker. Therefore, one of the objectives of JCI is to take until those people enabled with information so that the workers of the cooperative assume its craft taking conscience of the importance of this work, and that the society and the government value each time more the profession.</p>	<p><b>Cool Godfather!</b></p> <p>It is a project idealized for the Semear Foundation that it give to the chance people and companies to contribute with many social organizations that care boys and girls in situation of social risk in the State.</p> <p>In the program, each Cool Godfather supports financially one or more children without any bond, through a monthly contribution, today in the value of R\$ 40,00 for child.</p> <p>After the adhesion, the godfather receives for the post office a complete description from the child and a semester report from the activities from its sponsored person.</p> <p>If to desire, can enter in personal contact, marking visits through the responsible social organization for the child.</p> <p>The Social Responsibility exerted by the godfather provides to greater chances for the child or teenager sponsored person and consequently, contributes for the construction of a better society.</p> <p>The plan of action of the Communitarian V.P. has as goal to stimulate the sponsorship of 10 children in the project of the Foundation Semear. This way we will divulge the JCI in the community as well as we stimulate the involvement of the friends in social projects. Participate!</p>
<p><b>Project of public security convokes volunteers</b></p> <p>The question of public security will be taken per consecutive second year to Novo Hamburgo community through the Project Beehive.</p> <p>Created for JCI Novo Hamburgo in the last year, the objective project is show to the community that it can contribute with the improvement of the public security, fighting crime. The project will be taken to the population through lectures in schools of the three nets of education, associations of quarter, churches and other groups. In these lectures will be talked about items as the acquisition of origin objects doubtful, the disrespect to the policeman, the use of weapons, among others.</p> <p>In the Monday, April 4th, JCI Novo Hamburgo promoted in its headquarters a lecture to instruct all the interested people of the community in collaborating with the Project.</p>	<p>Definitive, as everything what it is simple. Our pain does not come of the lived things, But of the things that had been dreamed And it had not been fulfilled!</p> <p>(Carlos Drumond de Andrade)</p> <p style="text-align: right;">Susana Moura Schneider Communitarian Vice-president</p>

## The Mother Camel and its baby!

A mother and a baby camel were for there, when suddenly the baby camel asked: Baby: - Mother, mother, I can ask things to you? Mother: - Clearly! What is bothering my baby? Baby: - Why do the camels have hunchback? Mother: - Well, mine baby, we are animal of the desert, need the hunchbacks to reserve water and therefore we are known by surviving without water. Baby: - Certain, and why our legs are long and rounded? Mother: - Son, certainly they are thus for allowing to walk in the desert. You know, with these legs I can better put into motion me for the desert best of the one than any one! - the mother, proud said. Baby: - Certain! Then, Why our eyelashes are so long? Of time in when they confuse my vision. Mother: - My son! These long and thick eyelashes are as a protective layer for the eyes. They help in the protection of its eyes when reached by the sand and the wind of the desert! - the mother with pride in the eyes said. Baby: - Ok. Then the hunchback is for storing water while we cross the desert, the legs to walk through the desert and the eyelashes are for protecting my eyes of the desert. Then what are we making here in the Zoo?
